PROFILE

I recently graduated from Saigon Technology University as the Salutatorian. I have developed strong web development skills through both academic studies and hands-on experience, including 8 months of freelance work with various teams and a 3-month internship. I am actively seeking a full-time position as a fresher Front-end Developer. My immediate goal is to grow into a junior-level developer within the next year, with an aspiration to advance to a mid-level role within two years.

INTERNSHIPS

Front-end Web Internship at The Ark Studio, Ho Chi Minh City
March 2024 — June 2024

- Learned and adapted to the company's technologies.
- Gained proficiency in **Agile/Scrum** methodologies.
- Successfully developed a "Landing Mover" website demo for customers using **Next.js, MUI, and Mantine**.
- Joined the product team to develop a new portfolio website for the company.
- Link URL
